# Fall Semester

## Quick Guide

As part of our 2030 Vision, we desire that every stage of life, all generations, has a portion here. We are not just a church that gathers at weekend services. A vital element for our growth and discipleship is our midweek programming like Recovery, Men's and Women's Bible Studies, Young Adults Groups, Mission of God, and Home Groups.

Below, you will find the open registrations for our classes and groups for next semester. While we do have programming that runs all year long, there are certain offerings that run on a more formal schedule. These are offered only in the Fall or Spring semesters of the year, and also require registration, as spots are limited. You can also view all of our events on our website.

The Village Church.

## CLASSES

Our classes are more book- or curriculum-based, in a classroom-style setting. All classes include personal study assignments, small group discussions, and large group teaching.
